15,000 DIE IN GREAT ERUPTION

JAVA SCENE OF GREAT VOLCANIC OUTBURST COSTING MANY THOUSANDS OF LIVES.

By the Associated Press

AMSTERDAM, May 26.—The volcano of Kalut on the Island of Java, has burst into eruption, wiping out twenty villages in the district of Prengat and eleven in the district of Ditar and causing deaths estimated at 15,000 according to a Central News dispatch received here.

Java has been the scene of the most violent volcanic eruptions on record in times past. Probably the greatest of these occurred in 1884 when after an explosion of unprecedented violence one of these on the coast sank into the sea. Many thousands of lives were lost in the catastrophe.

Java is a dependency of the Netherlands and one of the richest of the East Indies.

VICTORY LOAN OVER THE TOP

TREASURY DEPARTMENT REPORTS OVERSUBSCRIPTIONS AMOUNTING TO \$750,000,000.

By the Associated Press

WASHINGTON, May 26.—Total Victory Loan subscriptions announced today by the treasury department were \$5,249,908,300, an oversubscription of \$750,000,000.

Capt. Hargis Gets Appointment.

Captain Sam H. Hargis returned last evening from Oklahoma City where he has been for the past few days, and reports that he has just been appointed as enforcement officer for the state highway commission. This is a department of the commission which requires four officers for the state and Captain Hargis was selected as one of the four.

The duties of the enforcement officers will be to look after convict labor on the state highways, see to the collection of automobile tax, etc., and will require more or less travel. The position pays fifteen hundred dollars a year and all traveling expenses and, all in all, is a very desirable position.

Captain Hargis is to be congratulated on securing this very important appointment, and the citizens of Ada can assure the governor and the commission that they could not have made a better selection anywhere in this part of the state.

WALTER MILBURN DIES AS RESULT OF BURNS

Walter Milburn of the Homokla Oil Company, who was so severely burned in the gas explosion near Allen on May 14th, and who has since that time been in the hospital at this place, died Sunday morning, May 25th, at 3:30 o'clock.

His wife and three children from Allen, one brother and his wife from Oklahoma City, and another brother from Milburn, Okla., were present at the time of his death.

The remains were shipped this afternoon to Madill at which place interment will be made.

Even to the casual observer it is said indeed to see this man who had not yet reached the noonday of his life lay down his tools of labor and say, "It is finished."

But still more heavy are those hearts who have been tendered by his companionship, for it is they who will miss him most for having known him longest and loved him best.

Norman-Robinson.

Saturday evening the marriage of Mr. E. Norman of Francis, and Miss Nell J. Robinson of Chickasha, was solemnized by C. V. Dunn, minister of the First Christian church of Ada. The wedding took place at the home of Mrs. T. E. Brents, 105 E. 14th street. The ring ceremony was used. Only a few immediate friends were invited to be present.

Mrs. Norman is a young lady of unusual attainments. Through her own efforts she made her way through the Ada normal where she was a prime favorite and after that taught most successfully at Tishomingo, Chickasha and other places. She merits the best the world can offer.

Mr. Norman is a young man of excellent reputation and is engaged in the grocery business at Francis. He is indeed to be congratulated on his success in winning such an estimable lady as his life's companion. Mr. and Mrs. Norman will make their home in Francis. They have the best wishes of their many friends.

J. H. Hodges of Palmer was in the city today making arrangements.

NORMAL SENIORS PLAY TONIGHT

TO PRESENT "MISS SOMEBODY ELSE," A COMEDY OF MUCH FUN AND MANY THRILLS.

"Miss Somebody Else," which will be presented at the Normal auditorium this evening by the Senior Class is said to be an unusually entertaining play. It is a comedy in four acts, in which Constance Darcy, the brilliant young daughter of Harvey Darcy, a multi-millionaire mine owner and proprietor, proves that rich girls are not necessarily butterflies, nor snobs, but have a longing for the real friendship of their wealth, and a chance to win a place for themselves in the world. To accomplish these, she decides to live incognito for a time. This gives rise to many amusing situations and also gives her an opportunity to prove her real worth.

The various characters in the play—a reduced gentleman, a scientist husband and debutant daughter, the society leader of the town in which the scenes are laid, her debutante daughter and only son; an Irish maid who is an amusing character; a vivacious French maid; a modern chauffeur; a young crook; society matrons, girls and young men—are each interesting types.

This evening spent in the Normal auditorium promises to be an evening of genuine enjoyment.

AMERICA WILL HOLD TONNAGE

COUNCIL OF FOUR AGREES THAT U. S. SHALL KEEP 700,000 TONS.

By the Associated Press

WASHINGTON, May 26.—President Wilson has informed officials here that the council of four of the peace conference has reached a full understanding by which the U. S. will retain 700,000 tons of German shipping seized in American ports when this country entered the war. Great Britain had proposed that this tonnage be placed in a common pool and allotted on a basis of tonnage lost by the various powers through submarine warfare.

TEXAS FOR SUFFRAGE AND PROHIBITION

DALLAS, Tex., May 26.—With approximately one-half of the votes cast in Saturday's constitutional amendment election reported unofficially, the several amendments remain approximately the same relative positions that they did in the returns received last night, prohibition, home ownership and suffrage leading in the order here named and the governor's salary showing defeat.

CREDENTIALS OF AUSTRIANS APPROVED

PENROSE AND WARREN WIN

PROGRESSIVE EFFORT TO BAR STANDPATTERS FROM CHAIRMANSHIPS DEFEATED.

By the Associated Press

WASHINGTON, May 26.—Republican senators of the progressive group lost their fight today against the selection of Senators Penrose, Pennsylvania, and Warren, Wyoming, as chairmen of the finance and appropriations committees, respectively, the party conference approving both assignments. The progressives, led by Johnson, California, made the issue on Penrose and were defeated 35 to 5. No effort was made to contest Warren's election and the conference approved all committee assignments according to plan. Senator Johnson indicated he would not carry the fight to the senate floor. Progressives who opposed Penrose and Warren who did not attend the conference were Bohah, Idaho, Kenyon, Iowa, and Norris, Nebraska.

RECOGNITION FOR KOLCHAK

COUNCIL DECIDES TO RECOGNIZE ANTI-BOLSHEVIK GOVERNMENTS IN RUSSIA.

By the Associated Press

PARIS, May 26.—The Council of Four of the peace conference has decided conditionally to recognize the anti-Bolshevik governments of Admiral Kolchak in Siberia and General Denekine in the Black Sea region, according to Reuter's agency here.

The conditions of recognition are that regarding the future of Russia the government agrees to convoke and accept the verdict of a genuine constituent assembly, likewise that the League of nations covenant and consequences affecting the boundaries of the former empire are to be accepted. The constituent assembly is to determine the form of government of Russia.

The various anti-Bolshevik governments springing up in different parts of Russia have largely combined under the leadership of Kolchak and Denekine, who with volunteer armies have defeated the enemy in many hard fought battles and have greatly reduced the extent of territory held by Lenin and Trotsky. They have long sought recognition by the allies and their cause will be materially strengthened in case this is extended them, hence the importance of the reported action by the Big Four.

YESTERDAY GREAT DAY FOR WOODMEN

Yesterday was a great day for the Woodmen of the World, notwithstanding the threatening condition of the weather from time to time during the day.

At 10:30 the members of the local camp assembled at the hall and marched in uniform to the First Christian church where the memorial sermon was preached by the pastor, Rev. C. V. Dunn. Being himself a member of the order, Mr. Dunn was peculiarly fitted to deliver the address, and every one who heard it was more than pleased. During the course of the service a list of the members of Ada Camp No. 568 who have answered the last summons since January 1st last year, was read. The names of the deceased are as follows:

H. M. Goad; H. H. Pritchett; P. O. Barton; August Fishbeck; H. W. Adeock; J. M. Brown; J. B. Gotcher; J. W. Shelton; R. H. Musgrove; C. C. Hargis; S. M. Torbett; F. R. Folsom; Hurley Prince; M. T. Potet; J. M. Taylor; Elbert Chapman.

At 2:30 in the afternoon the unveiling ceremony was held at the city cemetery, where the graves of all departed woodmen were properly and appropriately decorated.

The ceremonies were conducted by the various officers of the order, W. C. Williams acting as consul commander. Hon. A. N. Leecraft, Head Consul of the Woodmen of the State, and treasurer of the State of Oklahoma, delivered the principal address on woodcraft. Mr. Leecraft is an able speaker and those who hear him are always pleased. He is very popular and has many friends in this part of the state. Rev. Dunn recited that great poem, "Mortality," by Knox, and received many compliments on his delivery.

Uncle Eben.
"Dar's a heap o' selfishness in human nature," said Uncle Eben. "A lot o' men wishes everybody 'Happy New Year' on January first an' takes it back on January second."

AVIATION RECRUITING OFFICERS IN ADA

Lieuts. Stewart and Fancher arrived from Taliaferro Field, Fort Worth, Sunday afternoon and will remain here a few days to enlist men for the U. S. army air service. They want men between the ages of 18 and 45 who have no dependents. The air service trains bright young men without service to become expert aviation mechanics. Enlisted men with the necessary physical qualifications will have the opportunity of becoming flyers.

The officers offer to give recruits a ride back to Taliaferro Field, a distance of 160 miles, in their machine, if they desire to begin their service with an air trip.

Any one interested should see the officers at the Harris hotel. Sunday afternoon the aviators flew for some time above the city and gave a good exhibition stunt flying. They expect to give another this evening at 7:15.

RETAINING DISABLED SOLDIERS AND SAILORS

WASHINGTON, May 26.—Commercial occupations, as bookkeeping, clerical work, stenography and telegraphy appeal to disabled men who have a good general education and who are willing to devote a few months to intensive courses of training. Positions may be secured in a reasonably short time after beginning study, while those who are more ambitious, with better educational background may become accountants, advertisers, secretaries, insurance salesmen, bankers or office managers by continuing their training in evening schools.

More than 1200 discharged soldiers are being trained in these courses in business schools and colleges. It is the policy of the Federal Board for Vocational Education to utilize existing schools rather than to organize new schools for the purpose which is their privilege under the Act. Many of these schools have had experience in training handicapped men and are proving valuable aids in the work with wounded soldiers.

J. ERWIN MUTCH SINGS HERE FRIDAY EVENING

J. Erwin Mutch, baritone of the choir of the Cathedral of St. John the Divine, will appear under the auspices of the High School Musical Celebrities Club at the First Methodist church on next Friday evening.

Backed by a specific guarantee by Mr. Roland R. Witte of Kansas City, who has proven his personal interest in the effort of the local high school to furnish the class of entertainment which they have furnished, Principal A. L. Fentem pledges the patrons that they will enjoy him and his concert as genuinely as any that has ever been presented in Ada. The following is an extract from Mr. Witte's communication:

"Mr. Mutch gave his concert in Dallas a few weeks ago and they called him the American Tia Ruffo, which is a wonderful compliment. He is a young fellow, just thirty, but possesses a magnificent baritone voice with a phenomenal range and maintains the baritone quality with a higher range than most tenors, which is most unusual. He is an artist in every respect and a thorough musician. If you wish to take him, you may do so absolutely on my guarantee that if he does not give satisfaction you need not pay anything for him."

This means that Ada will have a treat on this occasion. Principal Fentem urges the assistance of all who wish to see the course succeed in advertising the concert.

NC-4 STILL DELAYED BY BAD WEATHER

By the Associated Press

WASHINGTON, May 26.—Confirming weather forecasts of yesterday Rear Admiral Jackson cabled the state department this morning from Ponta Delgada that the NC-4 was held at her moorings by unfavorable light conditions. The transatlantic flight probably will not be resumed before Tuesday.

ADA
TOWN

The daily expenses of the United
States government during the war
period were approximately \$23,-
000,000,000. The normal ex-
penditures of the government for the
same period would have been
\$2,069,000,000.

Luther Harrison of Ada, has joined
the Richard S. Graves club, which
is made up of editors running for
the United States Senate who intend
to run only this year and let the
other fellows run next year. That
leaves only about two hundred and
seventeen of us editors still in the
race.—Ardmoreite.

Plans have been put under way
by leaders of the national House
of Representatives to prevent Victor
Berger, convicted in the federal
courts of Illinois for violation of
the espionage act, from taking his
seat in congress. Berger is now
drawing \$825 a month on the pay-
roll of the House. Berger is plan-
ning a strong fight for his seat.

The latest arrival on the ex-
change table of the News is the
first issue of the Tupelo Tribune,
one of the publications of the Mis-
sionary Baptist Publishing Co., re-
cently organized by Rev. J. C. Mc-
Ghee. All progressive towns need
live newspapers to represent them
before the public and the News
wishes the new arrival unbounded
success and a big line of business.

The occupation of Smyrna by al-
lied forces is preliminary to the
establishment of a mandate over
throughout European and Asiatic
Turkey, virtually terminating the
existence of Turkey as an empire.
The council of four has agreed that
Great Britain shall be the manda-
tory for Mesopotamia and Pale-
stine; France for Syria and Sili-
cia; Italy for Adalia; and the United
States for Armenia. If the United
States accepts this responsibility for
Armenia, it will be referred to
Congress for approval.

Under ordinary circumstances to
discharge a college professor be-
cause of political views would be
most reprehensible and could not be
too strongly condemned as tending
to abridge the right of free
thought and free speech. However,
the action of the trustees of Rice
Institute of Houston in firing the
professor of sociology for uphold-
ing the bolshevik movement and
declaring that the character of Len-
ine is superior to that of Washing-
ton, is to be commended. A man
of that kind is too dangerous to be
permitted to train the rising gener-
ation, broadening thoughts of disloy-
alty against our own country and
training them up as anarchists of
the most dangerous sort. The ad-
mirer of Lenin should by all means
be deported to Russia and forced to
live under the rule of the Bolsh-
eviki the remainder of his days, but
when it came to getting out from
under the protection of the stars
and stripes that fellow would raise
a howl that would prove that after
all the old flag was not so bad to
live under.

The State Press

The Ardmoreite: Ada claims to
be the "Double-A-Town" of Okla-
homa. That's all right, fair Ada,
but Ardmore is the Double A-1 City
of Oklahoma.

Healdton Herald: In the passing
of Byron Norrell from the Ada News
Oklahoma newspaperdom loses tem-
porarily at least one of its bright-
est members. He is succeeded by
the News by Marvin Brown and it
is hoped that he will fill the niche
as acceptably as did Norrell.

Eufaula Indian-Journal: A sta-
tistician has estimated that total
cost of the war to all the nations
involved will amount to two hun-
dred billion. Staggering as is the
money cost, it is small in compar-
ison with the price paid in blood
and suffering of millions of others. And
yet there are men in America who
scoff and seek to defeat the effort
to prevent the recurrence of such a
calamity.

Oklahoma City Times: Senator
Sherman, the celebrated Illinois vol-
cano, is in eruption again, and his
tirade against the league of nations
is about what would have been ex-
pected of Senator Sherman. His
bitterness and vituperation, how-
ever, do not alter the fact that the
league affords the only hope of per-
manent peace. Its opponents have
offered no feasible substitute. The
course they choose would set the
world back to the old rivalry in
armament and balance of power.
Senator Sherman doesn't know it,
but

promises peace. No further condi-
tion can be absolutely guaranteed,
but it would be folly to ignore the
only hopeful course.

Ponca City News: We are of the
opinion that President Wilson made
a mistake when he recommended
that congress pass legislation that
would remove the war prohibition
ban. We do not think that the
conditions warranted this move, and
we do not think that the people
want this done—that is a majority
of them. And certainly the public
servant of a people, who have given
him political preference, should
desire to have done what the people
or a majority of them want done.
That congress will not pass the leg-
islation asked along this line, it is
generally conceded. The recommen-
dation by the President shows that
he is fearless. It shows moreover,
that he is not a follower but that
he strikes out in whatever he be-
lieves. He can at least not be ac-
cused of playing politics. For this
is one of the most unpopular moves
the President, in our judgment, has
ever made.

Okemah Ledger: The Congress
at its last session accepting the rec-
ommendations of the Department of
Agriculture, not only made avail-
able from the Federal Treasury
large additional sums for road con-
struction in cooperation with the
States but also made some impor-
tant amendments to the Federal
Aid Road Act. These amendments
will have the effect of greatly less-
ening the difficulties of selecting
and constructing needed roads.
The amount of federal funds avail-
able for road building on March 1,
was over \$72,900,000 which under
the law must be matched by at least
an equal amount from the States,
making a total of \$145,800,000 in-
cluding approximately \$9,800,000
from Federal and State sources for
roads in the National Forests. On
July 1, \$95,000,000 more of federal
funds will become available for gen-
eral road purposes and \$4,000,000
for National Forest roads, which
with equal contributions from the
States, will provide an additional
\$198,000,000 for Federal aid road
work making an aggregate sum of
\$343,800,000 for the calendar year.
In other words, the 1919 program
for Federal aid road building is
greater than any previous annual
road-building accomplishments in
this country. It is so great, in fact,
that the States will undoubtedly be
deriving part of the Federal
funds until 1920 because experi-
enced organizations must be de-
veloped from the stagnant conditions
of the war period before the im-
portant amount of road building
get under way.

PAYS NEWSPAPERS A
DESERVED TRIBUTE

That the war could not have been
won without the newspapers of the
United States was the statement of
Fred B. Appleget, newly appointed
associate executive secretary of the
Southern Department of the
Army. Mr. C. A. in a recent ad-
dress to the soldiers in Camp Travis,
Texas. The address was one of a
series being given on special sub-
jects by experts to the soldiers in
building No. 31 who have organized
an educational forum.

Mr. Appleget, who was a New
York editor and had been in news-
paper and magazine work in New
York for fifteen years prior to his
entering the war work, had been
asked to give an address on "News-
papers and the Men Back of them."

He said that the newspaper men
during the war were one of the
greatest allies of the allies and ma-
terially helped to whip the Kaiser.
"Next to the American Army it-
self, no single force in the country
has been so great and valuable, no
other power has done so much to
crush the Hun and bring peace
and liberty to the world than the
newspapers of this country," contin-
ued Mr. Appleget. "Of all the forces
back of the lines, the press has
been the most indispensable and
the most powerful and helpful."

"I like to think of all the Red
Cross, the Y. M. C. A., the Knights
of Columbus and all the organiza-
tions have done to help win the war,
and they have done wonders; but
without the support of the news-
papers of the country they could
have gone but a little way. The
press has been the big brother of
all the organizations, of all the
movements and of all efforts. It
has been the right hand of the pres-
ident himself."

"The country was loyal and brave
but it hardly knew it until the
newspapers told it so. Its patriot-
ism had got a little shop worn—the
newspapers took it out and dusted
it off and it looked as good as new.
The nation was generous, but it
had grown bashful about giving un-
til the papers took it in hand and
showed it that it was the most glori-
ous giver in all the history of
charity or finance since the first
coin was minted."

"No only that, but with the com-
ing of peace and the demobiliza-
tion of the armies, the press will
take the first line trenches and
battle for freedom, the brunt of the
democracy will be borne by it. On
the newspapers of the land will
largely depend the permanency and
value of the victory which our ar-
mies have won with so great a sacri-
fice."

PRESS MEETING WAS
A GREAT SUCCESS

By Byron Norrell.

The recent meeting of the State
Press Association at Medicine Park
was one of the best ever held in
the state, although the attendance
was not as large as it has some
times been when the meeting was
held at points nearer the center of
the state. However, most of the
live wires were there and they en-
joyed the meeting to the fullest ex-
tent.

The past year has seen more ac-
complished by the association than
any previous one in its history.
John Anderson of Snyder has taken
his duties as president seriously
and the results prove that he was
the right man in the right place.
Anderson did not take the view
that the presidency was merely an
ornamental position, but has given
much time to the work and in this
has been ably backed by Secretary
Bronson, the old wheel horse of the
organization.

In the matter of legislation the
passage of a bill raising the rate
for legal publications was an im-
portant event for the press and the
enactment of the law requiring the
publication of personal tax assess-
ments will be another good thing
for the press of the state to say
nothing of its importance as a
means of checking up on tax dodg-
ers. The fraudulent advertising law
will also tend for a better tone.
One of the greatest forward steps
was the adoption by the board of
affairs of a new printing schedule
which it is hoped to make the of-
ficial scale of all counties as well
for individuals. This was worked
out in co-operation with a com-
mittee of the association. Another
long step forward is the creation
of a central advertising bureau
which will act as the agent for
the press of the state.

Among the matters considered by
the meeting was the present zone
postage law for papers and period-
icals. This is of vital importance
to the small papers and Oklahoma
went on record along with Missouri
and Kansas as unanimously op-
posed to the repeal of this law as so
strenuously advocated by the big
papers and magazines of the East.

The Association adopted a new
plan for meetings. It was decided
to continue the annual business
meeting at Oklahoma City in Jan-
uary, move the spring meetings from
one place to another and hold a so-
cial reunion at the editors' home
at Medicine Park the first week in
August. Of course the annual vis-
it to the state fair will be con-
tinued. McAlester was selected as
the meeting place for next May. It
has been twelve years since that
city entertained the newspaper men
and this time a cordial invitation
was extended and accepted.

The following officers were elect-
ed: J. W. Kayser, Chickasha,
president; R. M. Elam, Ponca City,
first vice president; J. L. Newland,
Frederick, second vice president;
Mrs. Byron Norrell, Ada, third vice
president. Of course E. S. Bronson
of El Reno, was re-elected secretary.
Bronson has held this office for
twelve years and there is not an-
other man in the state who would
have given the duties of this of-
fice the attention he has. The secre-
tary is the most important mem-
ber of the official family and Mr.
Bronson has taken a great deal of
pride in the discharge of his du-
ties in a manner highly satisfactory
to the organization. In this con-
nection it is only justice to say that
the association has never had a bet-
ter president than John Anderson,
who filled the position the past
year.

In the way of entertainment the
Medicine Park and Lawton people
turned the crowd loose on the big
lake where fishing had never been
permitted before and there was no
end to the number of fish caught.
The Western Newspaper Union of-
fered some valuable prizes for the
biggest catches and Editor Hinds of
Okemah captured two of these with

EFFICIENCY OF
ADVERTISING.

Muskogee Times-Democrat:
While as the result of adver-
tising a business is doubled,
the rent is not commonly in-
creased very much. It is not
probable that the item of
clerk hire is doubled. Nor have
other expenses increased in
like proportion.

If a man is selling 5,000
articles annually at \$1.00 each
and if rent, clerk hire, and
other expenses amount to
\$2500, he must add 50 cents
to the price of each article
sold to cover expenses.

Now if by advertising he
increases sales to 10,000 arti-
cles, and if costs of doing busi-
ness have risen only to \$3500,
the expense charge which he
has to add to price of each arti-
cle is reduced from 50 cents
to 35 cents. He can still add
five cents per article as addi-
tional profit, and then sell 10
cents per article under prices
on a non-advertising basis.

Thus advertising reduces
cost of goods by enabling a
merchant to increase business,
and cut down expense charge
on each article sold.

fish. One fellow claimed that the
water in Lake Lawtonka fell a foot
as a result of so many fish being
taken out.

Friday evening the editors were
entertained by a concert given by
the 9th Artillery band and by
some Y. M. C. A. entertainers from
Fl. Sill. Both of these events were
splendid. Saturday three aviators
flew over from Ft. Sill and gave a
fine exhibition of aerial stunts.

Certainly the editors who failed
to attend this meeting missed much.
It is a duty every man owes to
the fraternity to become an active
member of the organization. It
has reached a highly effective state
and with more members can do still
better work and be recognized as a
force to be reckoned with.

BUSINESS MEN
IN OLD MEXICORECOMMEND THAT AMERICANS
STAY OUT UNTIL CONDI-
TIONS HAVE BECOME
MORE SETTLED.

Business men who recently par-
ticipated in a trade excursion into
Mexico are not inclined to favor
the immediate investment of capital
in that country. Banking facilities
were found to be unsound; trans-
portation was suffering severely
from the lack of rolling stock, and
manufacturing, smelting and min-
ing industries were operating on
part time. A visit was made to
Tampico where the situation in
the oil fields was shown to be un-
settled.

The excursionists were every-
where given a courteous and cordial
reception. The crops seemed to
be good and it was reported to
members of the party that they
were better than they had been
for several years past.

These statements are taken from
a report made to the National As-
sociation for the Protection of Am-
erican Rights in Mexico by a mem-
ber of this trade excursion who
writes that "the conditions in Mex-
ico are still far from normal, but
sufficient improvement has been
noted during the last few months
to warrant an effort toward estab-
lishing more active commercial re-
lations."

Do Not Favor Investment.
"The majority of the excursion-
ists, however, are not inclined to
favor the immediate investment of
capital in Mexico. They believe a
better plan is to cultivate closer so-
cial relations with the Mexicans,
study their needs and customs and
lay the foundation for the business
which they feel certain will come
from Mexico."

"I believe one of two things will
happen in Mexico within the next
year or two, says the report. Either
the Mexican people will stabilize
conditions sufficiently to give ade-
quate protection to foreign capital
and industries or it will be done for
them. The reason is obvious. Mex-
ico has much that the world needs
and needs badly. It is, therefore,
reasonable to suppose that the world
will secure these necessities."

"Carranza is unpopular with prac-
tically all classes except those who
have been able to profit from the
spoils of office. It seems to be the
general impression that he will
make no effort to continue to hold
the presidency, although his state-
ment that he would not do so has
been questioned."

Sentiment Has Changed.
"Public sentiment towards the
United States has undergone no-
ticeable change since the signing of
the armistice. The Mexicans realize
now that they misjudged this coun-
try and have a most wholesome re-
spect for our fighting ability. Ger-
man influence has slumped materi-
ally and not in years has the senti-
ment, particularly among the im-
portant commercial interests, been
so favorable to better business re-
lations with the United States."

"General conditions were found
to be better than expected. Few evi-
dences of acute suffering or want
were seen. Manufacturing, mining
and smelting industries were found
operating on part time."

"Second in importance to the res-
toration of order throughout Mex-
ico is the rolling stock for the rail-
roads. The rails and roadbeds over
which we were escorted are in good
condition, considering the years of
revolution through which the coun-
try has passed, but most of the
rolling stock has been confiscated.
There can be no great volume of
business in the republic until this
shortage is remedied."

"Many banks throughout the re-
public have been forced to close, the
government seizing all the money.
Banking facilities are in bad shape.
The establishing of sound govern-
ment institutions is essential. It is
equally important, many business
leaders asserted, that American
financial concerns establish branch
banks in Mexico, thus making long
time credits possible and facilitating
the transaction of business between
the two countries."

High and Unjust Taxes.
"The situation at Tampico contin-
ues unsettled. Interests there are
subject to high and unjust taxes and
the government is condemned for
not providing adequate protection
from bandit activities. At the same
time the majority of the American
concerns there also severely criticize
their own government for allow-
ing such a state of affairs to
continue without taking action to
help them. Robberies and bandit
outrages in this region are frequent,
as shown by press reports."

"Mexico City shows little effect
outwardly of the battles fought
there during the revolutions. There
is no semblance of any business de-
pression to an outsider, although an
investigation reveals practically
no constructive work being done
and that commercial operations are
seriously handicapped by the lack
of adequate banking facilities and
railway rolling stock. A member of
another trade excursion, in a letter
to the National Association for the
Protection of American Rights in
Mexico said:

"I was somewhat disappointed in
the present conditions in Mexico
upon my recent visit there. As
guests of the Carranza government,
naturally we were shown the best
side and were cordially received.
However, it is my opinion that their
cordiality may be explained on
the grounds that they have
reached a conclusion, since the sign-
ing of the armistice, that they 'have
been barking up the wrong tree'
and that it is to their interest to
show a friendly disposition toward
the United States. They know that
only in this country can they ob-
tain money for their depleted treas-
ury and that they must look to the
United States for many commodities
of which they are in need.
No Love for America."

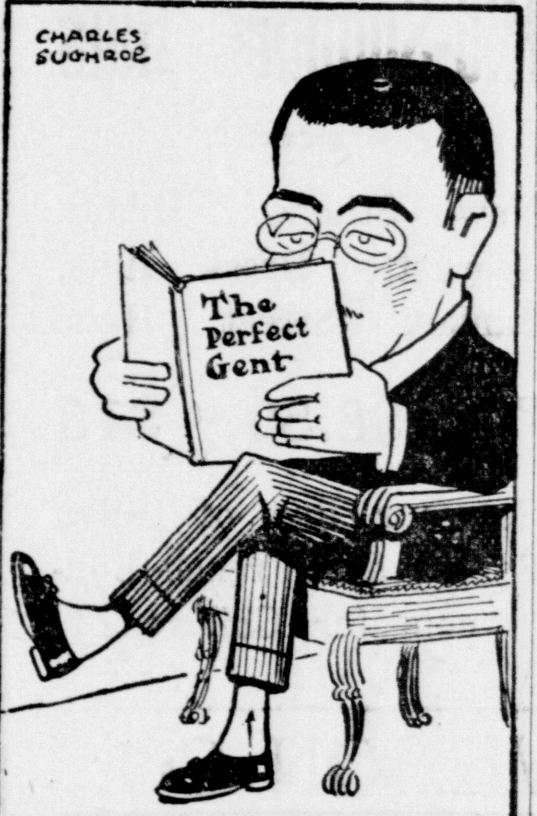

policy on their part. Frankly, un-
less they can get a loan from this
government or some American bank-
ing institution, I do not see how
the Carranza administration can
last very long. Money is needed to
keep the army satisfied and to buy
rolling stock and motive power to
put the railroads of Mexico in proper
shape."

"Banking conditions in Mexico are
very bad and very unsettled. So far
as I could determine, banks are
merely marking time to see what
laws the present congress will en-
act. The only salvation for the
present Mexican authorities seems
to be to pass laws protecting bank-
ing interests and foreign invest-
ments and properties."

"Here Carranza is between two
fires. The enactment of such laws is
likely to stir up trouble; if he does
not enact them, his government will
go bankrupt. I do not believe it
wise for this government, or any
private interest, to loan Mexico
money without definite arrange-
ments for supervision of the man-
ner in which it is expended. Other-
wise it will be fooled away."

Intervention Only Remedy.
"I do not see how Mexico can be
put on a stable basis unless the
United States or some world power
intervenes, at least to the extent
of establishing some sort of a
protectorate. Mexico is without
question a country of wonderful re-
sources but the present genera-
tion will never develop them. Im-
migration must be encouraged by
the enactment of some laws pro-
tecting the lives and interests of
foreigners in the country. I be-
lieve that this would result in the
establishment of stable conditions
and bring about the development
of the resources of the country."

NEW LAW FIRM OF
BULLOCK AND ORR

In our column of professional
cards there appears for the first
time the style of the new law firm
of Bullock and Orr.

Both of these men are too well
known to our readers to need any
special introduction. Mr. Bullock
resigned his office as County Attorney
of this county during the latter part
of his term for Y. M. C. A. service
with the Italian army at the front
and has just returned from Italy.
Captain Orr resigned as Assistant
County Attorney in April, 1917, and
enlisted in the army. He was com-
missioned Captain of Infantry in
August, 1917, and served with the
345th Infantry which returned to
the United States and was demobil-
ized in January.

The record of their vigorous ad-
ministration of the affairs of the
County Attorney's office during one
of the most turbulent periods of our
history is well known to everyone.
With an extensive experience in trial
practice and with a wide acquaint-
ance throughout this and neighbor-
ing counties we predict for the new-
ly created firm a brilliant future.

Members of Chamber of Commerce.
In the list of members of the
Chamber of Commerce printed in
the News a few days ago, the name
of Adam L. Beck was printed wrong,
and the names of the various min-
isters were omitted. Those prepar-
ing the list unintentionally left off
these names. They are all members
in good standing and doing their
part to build a larger and better
city.

Miss Lee and Miss Barrow will

First Christian church, Thursday
evening, May 29th, at 8:30 o'clock.
The public cordially invited. This
recital is the first of a series of
recitals to be given by both Misses
Lee and Barrow. 5-27-3t

LAWYER SAYS FORD DIDN'T HIT SOLDIERS

MOUNT CLEMENS, Mich., May 26.—The second stage of the Henry Ford-Chicago Tribune libel suit was completed today and on Monday the taking of evidence will begin.

The first stage of the proceedings, the selection of a jury, required a week and the second stage completed in an extra hour session today, brought to an end the arguments of counsel on admissibility of evidence, which consumed the second week of the trial.

The arguments, which were exhaustive, were pivoted on the demand of the defendant that it be permitted to show that anarchy existed along the Mexican border at the time the Tribune printed its editorial headed "Ford is an Anarchist."

The lawyers who spoke today were Alfred J. Murphy and William Lucking, son of Alfred Lucking, senior counsel for Mr. Ford, and Thomas J. Long and Horace K. Tenney, for the Tribune.

Murphy denied that Ford had ever directly said that the word "murderer" should be embroidered on the shirt fronts of soldiers. Ford, he asserted, in the course of an interview with Edward Marshall, a magazine writer, was told by Marshall that Jane Addams and Ford at the moment were discussing German soldiers the lawyer related, and Ford merely acquiesced in the alleged declaration of Miss Addams. Murphy said that in a deposition taken in Europe, Mr. Marshall admitted that he put the word in Ford's mouth and that he omitted the word "German" as modifying "soldiers" because he thought it would offend some of his readers.

Ball and Peanut Habit. WASHINGTON, May 26.—Marines down in Guam have the ball game and peanut habit just like all good Americans back in the states. Only this time they've started something new in the national sport. In a recent game between the Agana and Sumay Marines, running through 15 innings, the last four innings were played by the light of a full moon rising over the palms which border the Plaza.

In a game played by moonlight almost anything is likely to happen. Manion of Sumay started things for his team when he mailed a ball in the post office through a hole in the screen of one of the windows. The Agana fielder was unable to recover it without violating section H-20 of the local postal regulations and the Sumay boys walked home with the bacon.

Methodist Centenary "Over the Top" The Methodists of Ada have responded nobly to the challenge of the Centenary and during the busy days of last week laid on the altars of the church for the extension of the kingdom the quota of \$15,000 and then some. We thank every team worker and all the liberal, cheerful givers. We feel certain that the brightest day in the history of our church in this city and nation is now about to dawn. Let all of our people work and pray for the day that is about to be.—The Centenary Cabinet.

DADDY'S EVENING FAIRY TALE

By Mary Graham Bonner

THE GOLDFISHES.

"I'm pretty mad," said one of the goldfishes in the bowl, whose name was Mr. Tokio Jones.

"I'm mad, too," said Mr. Pekin Baxter, the other goldfish.

"What makes you mad?" asked Mr. Tokio Jones.

Now there were these two goldfishes in the bowl on the table in the library. They had been named, as you see, very fine names, Mr. Tokio Jones and Mr. Pekin Baxter.

Besides the two goldfishes in the bowl, there were two snails. They kept the glass clean and did their work very well, even though they worked very slowly.

"Did it make you mad, Snail One?" asked Mr. Tokio Jones.

"Did it make you mad, Snail Two?" asked Mr. Pekin Baxter.

"I'm not too lazy to get mad," said Mr. Tokio Jones.

"Neither am I," said Mr. Pekin Baxter.

"I do believe you are, though, Snail One," said Mr. Tokio Jones.

"I do believe you are, too, Snail Two," said Mr. Pekin Baxter.

"You must have heard what was said," continued Mr. Tokio Jones.

"Oh, yes, we heard it," said Snail One, poking out of its shell and speaking very, very slowly.

"Yes, we heard it," said Snail Two, speaking just as slowly as Snail One.

"Well," said Mr. Tokio Jones, "didn't it make you mad, honestly and truly?"

"Honestly and truly," said Snail One, "we'd have to think about it for a while before we could decide whether it made us mad or not."

"Goodness gracious! Mercy me!" said Mr. Tokio Jones. "I should think you would have known right away whether you were mad or not. Imagine stopping to think over as to whether you were going to become mad! That is quite the strangest thing I have ever heard of, quite."

"And if you wanted to think it over and didn't get mad right away," said Mr. Pekin Baxter, "you might miss getting mad altogether. Wouldn't that be quite dreadful?"

"I don't see why," said Snail One.

"I don't see why," said Snail Two, so slowly and so lazily, as though it said the same thing because Snail One had said it was easier to do that than to think up something new.

"It would be better not to get mad at all, wouldn't it?" asked Snail One.

"Surely it would be better," said Snail Two.

"One wouldn't get excited and one wouldn't get unhappy, and one wouldn't make oneself appear foolish as one often does getting angry," said Snail One.

And then both the snails looked at each other and said together: "We've talked enough, we are becoming worn out. We must not do so much. Let us rest."

So the snails would not talk any more.

"There was some sense to what they said," remarked Mr. Tokio Jones.

"Quite a lot of sense," replied Mr. Pekin Baxter.

"We did get awfully excited," said Mr. Tokio Jones.

"And who wouldn't?" asked Mr. Pekin Baxter, raising his dorsal fin, which was on the top of his back, where every well-behaved dorsal fin should be.

"Yes, who wouldn't?" repeated Mr. Tokio Jones.

"That little girl said, you remember," continued Mr. Pekin Baxter, "Oh, look at the wings on the fishes! Such ignorance! Of course, she meant fins, but it made me pretty mad to person who knew so little about fishes."

"And what made me mad was when her playmate said to her: 'Why, Marion, those aren't wings, those are fins,' and Marion said: 'Well, what is the difference which I say, wings or fins?'"

"That certainly made me mad."

"It did me," said Mr. Tokio Jones, "but let's not excite ourselves any more; let's be like the lazy snails, who are really sensible not to get angry, for it does no good at all."

Not a Bad Plan. The children were playing up in the attic, when suddenly Whitty gave a fearful yell.

"What is the matter?" said the nurse from below.

"Nothing," replied Whitty.

"Then what are you yelling for?"

"Cox I had a half-dozen of 'em in my throat, and I thought I'd better yell 'em now than do it tonight when papa's asleep."—The Little Wanderer.

Palestine's Salt Mountain. Palestine possesses a remarkable salt mountain situated at the south end of the Dead Sea. The length of the ridge is six miles, with an average width of three-quarters of a mile, and the height is not far from 600 feet. There are places where the overlying earthy deposits are many feet in thickness, but the mass of the mountain is composed of solid rock salt, some of which is as clear as crystal.

FLEW THE COOP.

Whitson Lee, colored, who has been confined in the city bastille for several days on a charge of petty thievery and other mischief, sawed two of the iron bars out of the back window of the jail last night, and by main strength and awkwardness bent two more somewhat out of position, and made his escape to parts unknown.

The strange thing about Lee's act is the fact that he only had about five more days to serve and work on the streets. Why he should take the chance of getting to work out an additional fine of a hundred dollars for breaking jail when he only had five days left on the old charge is a mystery to the officers.

Two other prisoners in the jail at the time of Lee's escape state that he had a small saw concealed in his shoe. How he secured it is not known at this time.

To still further increase the mayor's grief Cecil Morton and Bar-

ton Wright, who were sent out on the streets to work this morning, took advantage of the guard and made their escape also. The guard, as was his custom, to find, on his return, that his workmen had made their get-away. It is supposed that they caught the run-away fever from the negro who sawed the bars out of the window the evening before.

IN THE LAST ANALYSIS

It is the bank which depends upon business for success—not business upon the bank.

While it is true that no business can operate successfully without a strong banking connection, in a larger sense the bank itself can look for great success only in the ratio that success comes to its patrons.

The success for which this institution bids is that which comes to us as a direct result of intelligent co-operation and tangible assistance rendered to the friends and patrons of this bank.

Let us co-operate with each other.

Among the Lions.
The secretary of the Lions Club of Ada, Chas. L. Orr, is working on the proposition of getting a good delegation from the Ada organization to attend the state meeting of Lions Clubs to be held in Muskogee May 28th. The club elected two representatives to attend at their luncheon at the Harris Hotel recently, but the Muskogee club is anxious that as big a delegation as possible be secured in each city, and they promise all who attend a "roaring" good time. Mr. Orr thinks Ada will be represented by at least six members.

McAlester Club Busy.
That the Lions Club at McAlester is a busy organization, and bent on doing things, is attested by the following item which we take from the News-Capital of recent date:

To keep up with the progress of the city, the Lions club will put on a 100 per cent efficiency contest, it was decided at the weekly luncheon Wednesday in the Busby hotel. The object is to obtain full attendance at the meetings. Wednesday's meeting had 31 of the 50 members present.

Five captains will be appointed to see that the members are present at the meetings each week.

Dr. T. H. McCarley spoke on the health survey to be made in McAlester and the club voted to appoint a committee to co-operate. The club also endorsed a movement to have a city laboratory.

The Lions and their families will have a basket picnic next Wednesday starting at 4 o'clock. The details have not been arranged yet.

Two new citizens, Rev. D. C. Malory of the First Methodist church and F. C. Switzer, new warden at the penitentiary, were guests of the club.

It was announced that a silver loving cup had been bought and was on exhibition in De La Mater's window, to be given to the winning team in the first aid contests to be held here May 30.

GOOD DEVELOPMENT IN ALLEN FIELD

Special to the Evening News:

ALLEN, Okla., May 26.—The oil development in the Allen field is still under full head of steam and new locations are being staked out almost daily.

The Marjorie company is down to one thousand feet with a good looking hole and is going down to a still greater depth.

The Homaoka people are starting a deep test on their Harp lease in Sec. 24-5-8. This is one of the big companies and they have great hopes for this well.

The Texas Company is preparing to drill a deep test in Sec. 34-5-8. This is another one of the big ones and much interest centers around their activities.

John E. Lee is drilling on his second location in SE NE Sec. 23-5-8.

Great activity is in prospect for the near future and much interest centers around the deep tests which are now drilling, and those being located, as it is these which will determine whether or not this section of the country is over one of the richest oil fields in the state, as has been said by many oil men and not a few geologists.

Huff Heads Francis Schools.

James W. Huff, newly elected superintendent of the Francis schools is visiting at the East Central Normal today and looking for teachers for his school. Sup. Huff has recently returned from France where he spent six months in active service. Before entering the army, he was superintendent of the schools at Cache in Comanche county in the western part of the state. He is a graduate of Central State normal school and has done considerable work at the state university.

While in Ada, he is staying at the home of Mrs. Mary Bentley on East Ninth street.

He will be shown thru the stock—not talked thru—he will try on without music and if he finds a suit to his liking will buy with the knowledge that it will serve him well, or we'll re-serve him FREE.

But if, on the other hand, he doesn't make a choice—if we haven't in this great stock a suit for his fancy—he won't be asked to suffer any argument or listen to an appeal for a new trial.

His case will be closed with a pleasant "Call again," and don't worry—he will.

HAWKER AND GRIEVE RESCUED AT SEA

LONDON, May 26.—Missing for six days and virtually given up for lost, Harry Hawker and Lieut. Commander Grieve, his navigator, British airmen, who essayed a flight across the Atlantic ocean, without protection against disaster save what their frail airplane afforded, are safe tonight aboard a British warship off the Orkneys.

Tomorrow they will reach the mainland and proceed to London, where they will be acclaimed as men returned to life.

Some 1,100 miles out from Newfoundland and 800 from the Irish coast, on Monday, May 19, the aviators making the best of an engine which was failing to function properly, were compelled to alight on the water.

The light Danish steamer Mary, bound from New Orleans and Norfolk for Aarhus, Denmark, picked the wayfarers up and continued on her northward voyage.

Lacking a wireless outfit the captain of the steamer was obliged to withhold the good tidings of the rescue until he was opposite the Butt of Lewis, where the information was signalled by means of flags that Hawker and Grieve were aboard his ship.

Immediately word was flashed to the British admiralty which sent out destroyers to overtake the Danish vessel and obtain confirmation. This was done and one of the destroyers took the airmen off and later transferred them to the flagship Revenge.

From this safe haven Hawker sent a message tonight that his machine had stopped owing to the blocking of the water circulation system.
